SKILLS

- Languages:** C, C++, JavaScript, Python
- Technologies:** HTML, CSS, React
- Databases/Tools:** MySQL, PostgreSQL, Git, GitHub, Pandas, NumPy
- Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability,

PROJECTS

Smart Drip Irrigation System(Hardware)May 2026

- Developed an **IoT-based smart irrigation system** using Arduino Uno, ESP8266, and DHT22 to monitor environmental conditions and automate plant irrigation.
- Built a **React.js web dashboard** for real-time sensor monitoring and remote irrigation control over Wi-Fi.
- Implemented **API-based communication** between the web application and hardware to transmit sensor data and control commands.
- Automated irrigation based on environmental conditions to **reduce manual intervention and improve water-use efficiency**.

Tech Stack: Arduino Uno, ESP8266, DHT22, Relay Module, DC Motor, React.js, JavaScript, HTML/CSS, API

Environmental Alert System | [GitHub](#)Apr 2026

- Developed an **environmental alert platform** integrating multiple APIs to provide real-time weather, temperature, humidity, rainfall, air quality, and pollution data.
- Built an interactive **React.js dashboard** with charts, alerts, maps, and visual indicators for monitoring location-based environmental conditions.
- Implemented **REST API integration, Leaflet maps, and Recharts visualizations** to deliver timely environmental insights and alerts.

Tech Stack: React.js, JavaScript, HTML/CSS, REST APIs, Leaflet, Recharts

CERTIFICATES

- Introduction to Artificial Intelligence | [InfosysSpringboot](#)Apr 2026
- Introduction to Python| [Saylor](#)May 2026
- C programming [Neo Colab](#)May 2026

EDUCATION

Lovely Professional University

- Bachelor of Technology - Computer Science and Engineering; **CGPA: 9.4**

Shining Glorious Scholar Public School

- Higher Secondary Education; **Percentage: 79.8%**

Shining Glorious Scholar Public School

- Secondary Education; **Percentage: 84.2%**
